MARY MAGDALENE NOT MEROVINIGAN

CHAPTER 3

The Holy Grail SERIES that promote the descendents of Jesus and Mary as Merovingian's are wrong and they know it. They are deliberately deceiving all of us by these phony stories.

What you actually find when you dig into archeological records, science, geology, DNA and truth legends, etc., is that Mary Magdalene was actually not a Merovingian nor was here bloodline, they were MAGDALENIENS. Jesus and his tribe of Nazarenes were also connected with the Scandinavians that lived in southwestern Europe during the Magdalénien Era. During the Magdalenian Era, Scandinavians migrated south from Scandinavia ahead of the ice sheet and remained there until the Ice Age melted

TRACING EUROPEAN ANCESTRY

The genetic data shows that, beginning **37,000 years ago**, all Europeans come from a single population that persisted through the Ice Age.

The founding population has deep branches in different parts of Europe, one of which is represented by a specimen from Belgium.

In fact, present-day Europeans can trace their ancestry back to this group of humans who lived in northwest Europe **35,000 years ago**.

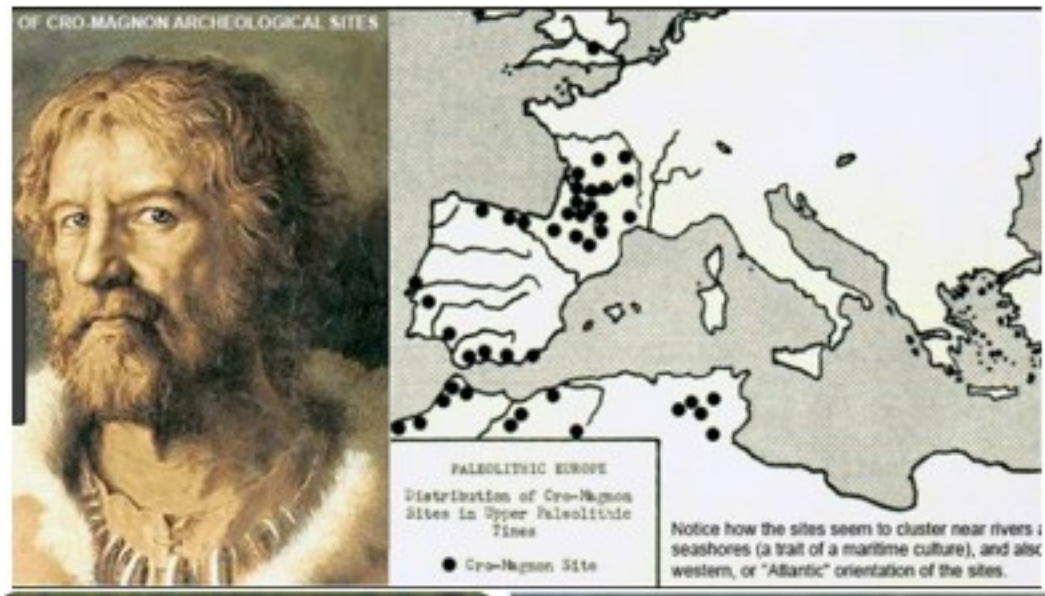
However, this founding population, which was part of the Aurignacian culture, became displaced when another group of early humans arrived on the scene in many parts of Europe **33,000 years ago**.

This group was made up of members of a different culture known as the Gravettian.

Around **19,000 years ago**, a population related to the Aurignacian culture re-expanded across Europe.

It is thought these people went on to repopulate Europe after ice sheets retreated.

Based on the earliest sample in which this ancestry is observed, it is plausible this population expanded from the southwest - present-day Spain - after the Ice Age peaked.



OF CRO-MAGNON ARCHEOLOGICAL SITES
PALEOLITHIC EUROPE
Distribution of Cro-Magnon Sites in Upper Paleolithic Times
Cro-Magnon Site
Notice how the sites seem to cluster near rivers
seashores (a trait of a maritime culture), and also
western, or "Atlantic" orientation of the sites.

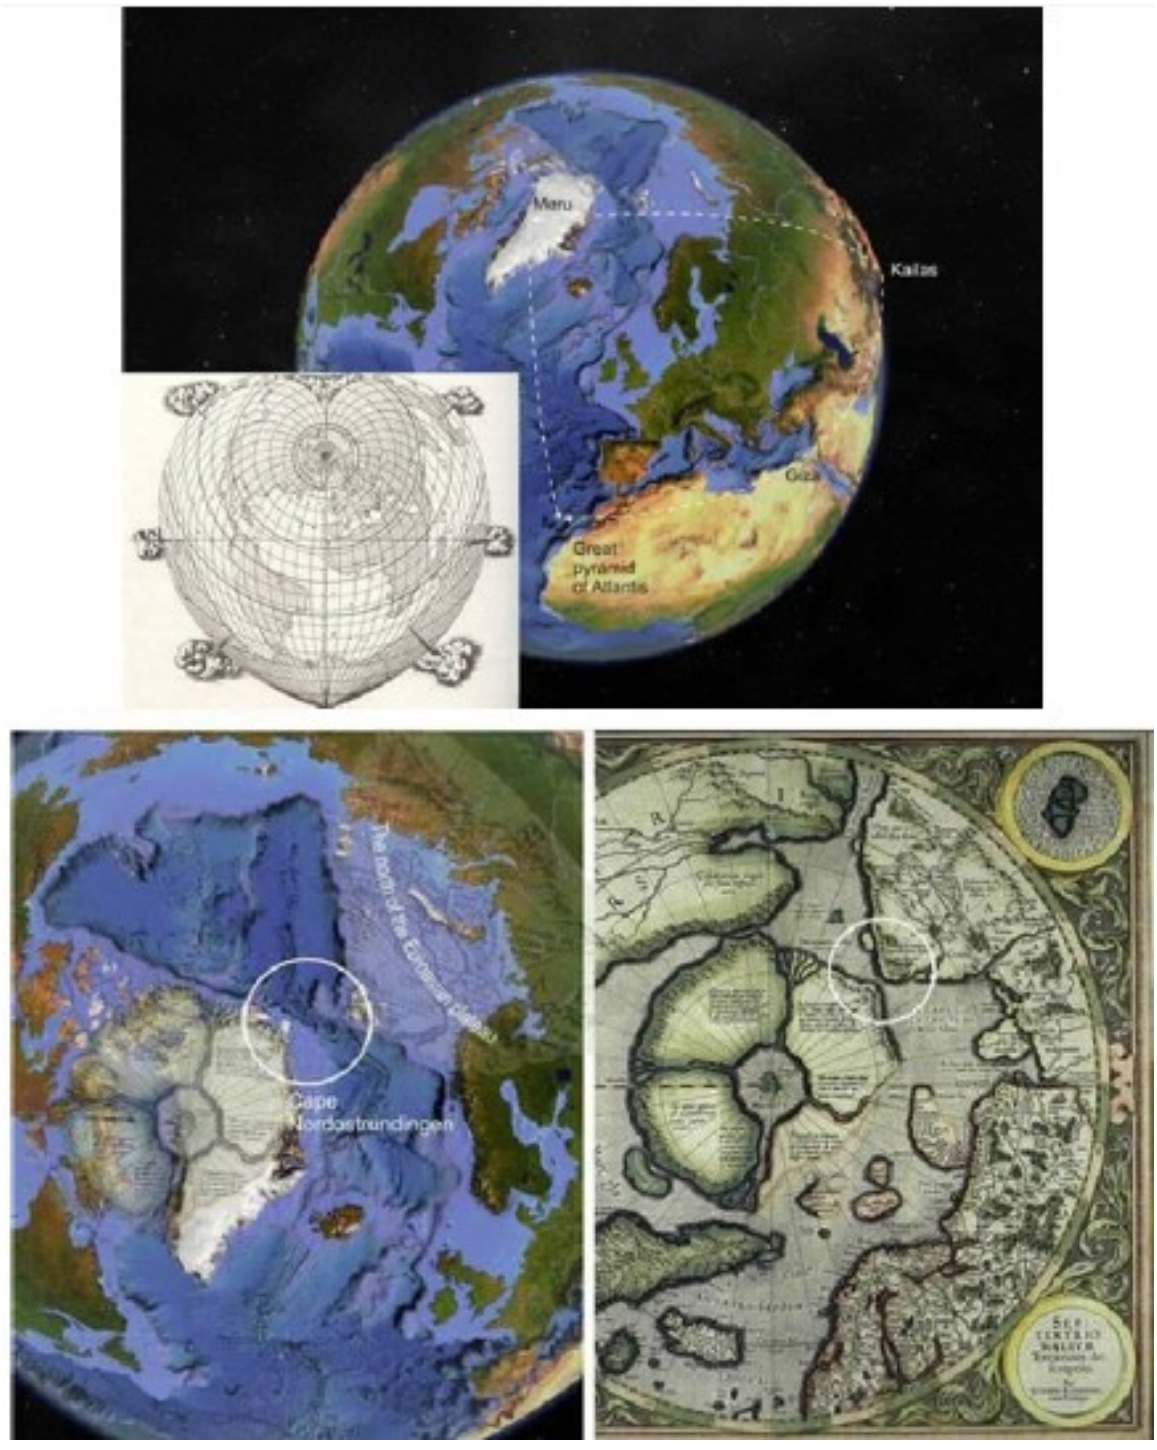
During the Magdalénien Era some of the Scandinavian Aurignacine people apparently bred with the SOLUTREAN INDIAN ADAM HUNTER GATHERS whose descendents became the Gravettian mixed race that populated the Basque region and then migrated into Turkey and, Israel and Sumer in Mesopotamia and further east. The Scandinavians were the more advanced cultures that became associated

with the Languedoc region of France, where the Holy Grail authors claim Mary went after the Crucifixion of Jesus (Yashua). Keep in mind that the Holy Grail authors were the descendents of the SECTS that originated in and came out of the Middle East. This story was a very cleaver way to blend together the ORIGINAL BLOODLINE with the HYBRID BLOODLINES from the Middle East.

I believe when scriptures say Mary Magdalene or Mary from Magdalene they mean the original area where our indigenous Scandinavian Nazarenes ancestors lived at in Western Europe before, during and after the last BIG FREEZE. Back in the days Jesus (Yashua) lived, people were associated with where their bloodlines originated. They did not have last names. Instead to identify them they would use their first names followed by the area or region on earth they originated from. Mary would have been a Scandinavian from the bloodline of the Magdalenian's who came south from the North Pole ahead of the last Big Freeze, during the Younger Dryas Geophysical Pole Shift era that cause the global flood stories.

During the life and times of Jesus and Mary, the village of Magdala or Magdol (Mary's village), was also a Scandinavian community and not the Jewish Turkish, Semite community it has become today. Magdala would have been named after the Scandinavian Magdalenian Era in Western Europe where their Scandinavian ancestors once lived. Nazareth was not a town back then it was a Nazarene tribal village.

Their has been a bloodline feud going on between these two bloodline factions for thousands of years that is coming to a head today at the End of this Earth Age Period. Let's call it the feud between the European Scandinavian Nazarene Magdalenian's and the dark hair dark eyed, red hair green eyed crooked nosed SECT of SERPENT, REPTILIAN and SCORPIONS from the Middle East.



Before we go any further talking about the Magdalenian's, lets go back in time to the beginning. It is always best to start at the beginning and then work our way forward in time so that we can better understand the dynamics of what is going on an why.
